Pella gives you fewer details to worry about and more ways to delight your customers with a quality fit and finish. We offer exterior trim options designed to complement wood, fiberglass, and vinyl windows and doors from Pella – including factory-applied and factory-finished trim that can dramatically reduce installation time. No matter the home’s construction type or architectural style, you can count on Pella for more efficient ways to give your projects distinctive detailing and curb appeal.
# Exterior Window and Door Trim Options

## NEW CONSTRUCTION/FULL-FRAME REPLACEMENT

### ENDURAACLAD® EXTERIOR TRIM

Factory-applied, low-maintenance aluminum trim.

<table>
<thead>
<tr>
<th>WOOD CLAD</th>
<th>FIBERGLASS</th>
<th>VINYL</th>
</tr>
</thead>
</table>

- Prefinished with Pella's tough EnduraClad finish; matches Pella® products.
- Brick mould or 3-1/2” brick mould, 3-1/2” flat, Jefferson or Monroe profiles.
- Several sill nose options.
- Custom profiles available.
- Designed for aluminum-clad wood windows and doors.

### FRAME EXPANDER

Durable, snap-in trim that is adjustable to field conditions.

<table>
<thead>
<tr>
<th>WOOD CLAD</th>
<th>FIBERGLASS</th>
<th>VINYL</th>
</tr>
</thead>
</table>

- Prefinished; matches Pella products.
- Provides the look of flat trim.
- Aluminum brick mould can be attached to re-create the look of historical wood brick mould.
- No metal brake required.
