Pella® windows and doors at Lowe’s.

Two brands you can trust – combining more than 150 years of dedication to home improvement excellence. We’re committed to delivering the best products and the best experience possible to create better homes for better living.

Design a home you’ll love for years to come.
Pella and Lowe’s are here to help.
Pella offers three lines of vinyl products. Whether your goal is to cut heating and cooling costs, help eliminate drafts, improve your home’s beauty or increase your comfort, there is a Pella vinyl window or patio door to fit your budget.

**SIX EASY STEPS**: That’s all it takes to select the right Pella vinyl window or patio door to fit your needs.

**STEP 1**: Pick your window or patio door style  ............... PAGE 9

**STEP 2**: Select your glass ............................... PAGE 10

**STEP 3**: Choose your frame colors ...................... PAGE 11

**STEP 4**: Select your hardware ........................ PAGE 12

**STEP 5**: Personalize with additional options ................. PAGE 13

**STEP 6**: Choose installation .............................. PAGE 25
What makes Pella® vinyl windows and patio doors an excellent choice?

Pella offers more for your money than ordinary vinyl.

Three product lines to fit your style and budget. See pages 5 - 6 for more details.

- **PELLA 350 SERIES**
  - Premium Design with Superior Energy Efficiency

- **PELLA 250 SERIES**
  - Exceptional Vinyl Performance and Style

- **THERMASTAR BY PELLA®**
  - Value Backed by Pella

Exceptional energy efficiency.

Pella 350 Series windows with Advanced Low-E triple-pane glass are 54% – 83% more energy-efficient than single-pane windows¹ and block 86% of the sun’s fading ultraviolet rays.

Optional triple-pane glass. Pella 350 Series and Pella 250 Series products offer the option of three panes of Low-E insulating glass that helps maximize energy efficiency and increase comfort year round. Optional foam insulation increases energy performance.

All Pella vinyl products offer high-performance glass choices that provide energy efficiency and comfort for years.

Fewer worries about drafts and leaks.

Triple protection against air and water infiltration. Pella double-hung and single-hung vinyl windows feature our exclusive weather-repel system.² It provides three points of protection that channel water away from the home.

What makes Pella® vinyl windows and patio doors an excellent choice?

✔ **Extra strength and durability.**

Fewer worries about warping, sagging or bowing vinyl. Pella’s precision welding process helps eliminate “vinyl smile.”

**Stronger and more durable than ordinary vinyl products.** An exclusive multichambered frame design makes Pella® 350 Series products 83% stronger and Pella 250 Series products 52% stronger than ordinary vinyl.

✔ **More beauty and style.**

Pella’s exclusive SmoothSeam interior welded corners on Pella 350 Series window sashes and patio door panels are virtually invisible, yet strong and durable.

✔ **Stays looking great longer.**

Pella’s enhanced vinyl formula is performance-tested for excellent weathering, durability and color retention. In addition, Pella’s DuraColor™ Brown vinyl finish exceeds industry standards for fade resistance.

One of the best warranties in the business. Pella’s Limited Lifetime Warranty is nonprorated, meaning the coverages within the defined warranty periods do not decrease over time. See written warranty for complete details, including specific labor and component warranty periods, at PellaAtLowes.com/support.

---

1 Improved window energy efficiency calculated in a computer simulation using RESFEN 5.0 default parameters for a 2,000-square-foot existing single-story home when comparing a Pella 350 Series vinyl window with InsulShield® Advanced Low-E triple-pane glass with argon to a single-pane wood or vinyl window. For more details, see pella.com/methodology.

2 Not available on ThermaStar by Pella® single-hung windows.

3 Based on the force required to bend a window frame profile.

4 Available on Pella 350 Series products only.
Three vinyl lines. One right for you.

PELLA® 350 SERIES

Exceptional Vinyl Performance and Style
You get Pella craftsmanship in a great-looking vinyl window that’s stronger and more energy-efficient than ordinary vinyl — with our most preferred vinyl styles, features and options.

PELLA 250 SERIES

Premium Design with Superior Energy Efficiency
Our premium vinyl windows and patio doors are Pella’s most energy-efficient vinyl products – they’re loaded with exclusive Pella innovations that make them more beautifully detailed, dramatically stronger and more durable than ordinary vinyl.

THERMASTAR BY PELLA®

Value Backed by Pella
Our competitively priced vinyl features low-maintenance, high-grade vinyl frames that look great for years. Best of all, you get the pride of owning quality products backed by Pella.

# ENERGY EFFICIENCY

Exclusive energy-saving system.
- Pella® 350 Series windows with triple-pane glass are 54% – 83% more energy-efficient than single-pane windows.1
- Optional foam insulation increases energy performance.
- Our vinyl frame has up to 18 insulating air chambers inside – significantly more than ordinary vinyl has.
- Outperforms industry requirement for air infiltration by 50%.2

# DURABILITY AND PERFORMANCE

Exclusive premium frame design – one of the strongest in the industry.
- Frame that’s 83% stronger than ordinary vinyl.3
- High-performance weatherstrip design has increased protection from the elements in extreme weather.

# BEAUTY AND STYLE

Premium detailing – looks more like a wood window than ordinary vinyl.
- Exclusive SmoothSeam® welded corners on all flush interior surfaces – virtually invisible, yet strong and durable.
- Robust frame profile with a beveled edge.
- Optional dual-color frame – White on the inside, Brown on the outside.
- Optional grilles-between-the-glass – or Simulated-Divided-Light Grilles for the traditional look of individual windowpanes.

# PEACE OF MIND AND CONVENIENCE

Loaded with features that can improve your quality of life.
- Reduce outside noise like traffic and lawn mowers by 29% – 59% compared to a single-pane window.4
- TrueGlide Plus balance system – Pella’s most durable, reliable balance system. Your double- or single-hung window will glide open and closed easily for years to come.
- Optional high-transparency InView™ screens.5

---

1 Improved window energy efficiency calculated in a computer simulation using RESFEN 5.0 default parameters for a 2,000-square-foot existing single-story home when comparing a Pella 350 Series or Pella 250 Series vinyl window with InsulShield® Advanced Low-E triple-pane glass with argon to a single-pane wood or vinyl window. For more details, see pella.com/methodology.

2 Based on WDMA Hallmark requirements using NFRC model-size windows.

3 Based on the force required to bend a window frame profile.

4 Reduction in outside noise based on OITC ratings of products with sound control (3mm/5mm or laminated) glass compared to a single-pane window with an OITC of 19. Actual results may vary.

5 WARNING: Screen will not stop child or pet from falling out of window or door. Keep child or pet away from open window or door.

6 Compared to a traditional constant force balance system.

### EXCELLENT ENERGY-SAVING PERFORMANCE.

Excellent energy-saving performance.
- Pella 250 Series windows with triple-pane glass are 54% – 77% more energy-efficient than single-pane windows.1
- Optional foam insulation increases energy performance.
- Outperforms industry requirement for air infiltration by 36%.2

---

### OUTSTANDING STRENGTH AND WEATHER RESISTANCE.

Outstanding strength and weather resistance.
- Frame that’s 52% stronger than ordinary vinyl.3
- Our exclusive weather-repel system on double- and single-hung windows has three points of protection to channel water away from the home – including triple weatherstripping.

---

### A HIGH-QUALITY LOOK AND MORE STYLE FEATURES THAN ORDINARY VINYL.

A high-quality look and more style features than ordinary vinyl.
- Full-frame profile with edge detailing.
- Optional grilles-between-the-glass – or Simulated-Divided-Light Grilles for the traditional look of individual windowpanes.

---

### OUR MOST POPULAR CONVENIENCE FEATURES.

Our most popular convenience features.
- Optional triple-pane glass helps reduce outside noise.
- TrueGlide balance system helps ensure your double- or single-hung window opens and closes easily and quietly, with less resistance.5
- Conventional fiberglass screens.5

---

### SAVE ON YOUR HEATING AND COOLING COSTS.

Save on your heating and cooling costs.
- All ThermaStar by Pella® windows and patio doors offer the energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.

---

### GREAT OVERALL STRENGTH.

Great overall strength.
- Multichambered frame and fully welded sash reduce sound transmission and improve strength and thermal performance.
- Our precision welding process makes a stronger and more durable window and helps prevent the frame from warping and twisting over time like ordinary vinyl can.

---

### HIGH-QUALITY VINYL FRAME STAYS LOOKING GREAT FOR YEARS.

High-quality vinyl frame stays looking great for years.
- Attractive frame profile.
- Optional grilles-between-the-glass make glass cleaning easy.

---

### ADDED CONVENIENCE.

Added convenience.
- Multichambered, fully welded sash and frame insulate from outside noise.
- Balance system allows double- and single-hung windows to open and close easily.
- Conventional fiberglass screens.5

6 Compared to a traditional constant force balance system.
Yes, there’s a Pella® vinyl window and patio door solution.
What makes a window or door suited for a particular type of project? The type of frame it has. Pella vinyl windows and patio doors are an ideal fit. They’re available with a variety of frames and accessories to help you or your contractor ensure a precise fit into most any opening.

Replace.
Replacing your old, drafty windows and doors is easy with Pella vinyl products. Windows with a pocket replacement frame fit neatly into your old window frame and install in about an hour. Standard and custom sizes are available to ensure a quality fit.

Remodel.
Adding new Pella vinyl windows or patio doors enhances the beauty of your room with natural light. A complete line of styles and features is available – so your new space will complement the rest of your home.

New construction.
Building a new house? Pella has a full product offering of vinyl window styles to enhance your home’s design – including Special Shape windows such as circlehead windows that add architectural interest and light. A vinyl sliding patio door completes the look.

Learn more at PellaAtLowes.com.
The six steps to selecting your vinyl window or patio door.

1. **Pick your window or patio door style.**
   - Page 9

2. **Select your glass.**
   - Page 10

3. **Choose your frame colors.**
   - Page 11

4. **Select your hardware.**
   - Page 12

5. **Personalize with additional options.**
   - Pages 13 - 14
   - Grilles
   - Blinds or Shades
     - Blinds and shades between the glass available on patio doors only.
   - Screens

6. **Choose installation.**
   - Page 25
Window styles.

A full product line ensures you will have the right style to complement your home.

Sliding patio door options.

* Available in ThermaStar by Pella® East Region only.
Comfort in. Weather out.

Pella® products offer exceptional energy-efficient performance wherever you live.

---

**Low-E Glass Collection**

**Energy performance.** Pella’s InsulShield® Low-E Glass Collection features our most innovative and energy-saving choices designed for your specific needs. Whatever your climate, we make it easy to choose the glass that’s just right for you.

---

**NaturaSun**

Low-E Insulating Glass with Argon®

**Best Use:** Cold climates like far northern U.S. Allows the sun’s heat to flow in and warm your home, while providing excellent insulation from the cold.

---

**AdvancedComfort**

Low-E Insulating Glass with Argon®

**Best Use:** Northern U.S. climates. Unique Low-E technology delivers balanced insulation for colder winters and moderate summers.

---

**Advanced Low-E Insulating Glass with Argon®**

**Best Use:** Many U.S. climates. Unique Low-E technology delivers balanced insulation for cold winters and hot summers.

---

**SunDefense™**

Low-E Insulating Glass with Argon®

**Best Use:** Very hot, sunny climates. Allows in visible light and provides a clear view, while helping to block the heat of the sun.

---

**ADDITIONAL ENERGY-EFFICIENT GLASS OPTIONS**

**Impact Resistance**

HurricaneShield® products with impact-resistant glass increase the safety, security, ultraviolet protection, noise control and energy efficiency of your home in addition to providing strong protection from flying debris.

---

**Privacy**

Obscure insulating glass is ideal for intimate spaces such as the bathroom or bedroom. The textured surface lets the sun shine in while obscuring the view.

---

**Safety**

Tempered glass is four times stronger than regular glass, and if the glass fractures, it will break into very small particles, not sharp pieces.

---

See page 23 to view the glass options available for each product line. All Pella vinyl products offer the energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.
Choose your frame colors.

Pella® vinyl windows and patio doors are available in colors that blend beautifully inside your home and out. White or Almond vinyl interiors go well with today’s popular woodwork. White, Almond or Brown vinyl exteriors enhance the curb appeal of homes with stone, brick or earth-toned siding colors.

White on the interior and Brown on the exterior to complement your home inside and out. Pella’s DuraColor™ exterior finish is designed for vinyl windows and patio doors – to resist softening and fading caused by exposure to sunlight. This finish exceeds industry standards for fade resistance.

Learn more at PellaAtLowes.com.
Select your hardware.

Standard Pella® vinyl window and patio door hardware is color-matched to your window or door frame for a seamless look. Or choose the option of today’s most popular hardware finishes to complement other decorative finishes in your home.

Pella vinyl window options.

**HARDWARE FINISHES**

Standard finishes are White and Almond; Satin Nickel, Bright Brass and Oil-Rubbed Bronze are optional. Exterior hardware finishes match the frame color.

- White
- Almond
- Satin Nickel
- Bright Brass
- Oil-Rubbed Bronze

**SLIDING PATIO DOOR HANDLES**

Standard finishes are White and Almond; Satin Nickel, Bright Brass and Oil-Rubbed Bronze are optional. Exterior hardware finishes match the frame color.

- White
- Almond
- Satin Nickel
- Bright Brass
- Oil-Rubbed Bronze

**FOLD-AWAY CRANK**

The casement and awning window crank folds neatly out of the way so it won’t interfere with roomside window treatments. Standard on casement and awning windows.

**AUTOLOCK**

Simply close your window and confirm it latches. Optional on double- and single-hung and sliding windows.

**MULTIPOINT LOCK**

Secures door in two or more places, providing enhanced security.

**CAM-ACTION LOCK**

Pulls the sashes against weatherstripping to help ensure a superior weathertight seal. Standard on double- and single-hung and sliding windows.

**SASH LIFT HANDLE**

Designed for strength and style. Optional surface-mounted sash lift on double- and single-hung windows.

**EXTERIOR KEYLOCK**

Patio door handles require a key to unlock from the exterior.

Pella vinyl patio door options.

- White
- Almond
- Satin Nickel
- Bright Brass
- Oil-Rubbed Bronze

**SLIDING PATIO DOOR HANDLES**

Standard finishes are White and Almond; Satin Nickel, Bright Brass and Oil-Rubbed Bronze are optional. Exterior hardware finishes match the frame color.

- White
- Almond
- Satin Nickel
- Bright Brass
- Oil-Rubbed Bronze

**MULTIPOINT LOCK**

Secures door in two or more places, providing enhanced security.
Grilles-between-the-glass$^1$ and Simulated-Divided-Light Grilles$^2$.

**Grilles-between-the-glass**
Permanently sealed between panes of insulating glass — never need dusting and create a smooth surface that is easy to clean.

- 3/4-in. Contour
- 5/8-in. Flat
- 1-in. Contour

**Simulated-Divided-Light Grilles**
Permanently bonded to the inside and outside of the glass, creating the realistic look of individual windowpanes.

Grille patterns.
Pella offers an attractive variety of grille patterns for the look of individual windowpanes.

- Traditional
- Traditional Top Sash
- 9-Lite Prairie
- 9-Lite Prairie Top Sash
- 6-Lite Prairie
- Top Row
- Custom (equally divided)
  Additional patterns available.

---

$^1$ Appearance of exterior grille color may vary depending on the Low-E insulating glass selection.

$^2$ Available on windows only.
Optional blinds- or shades-between-the-glass for patio doors.

Blinds or shades permanently sealed between panes of insulating glass never need dusting and create a smooth glass surface that’s easy to clean. Plus, they won’t get in your way when you go in and out.

Blinds or shades permanently sealed between panes of insulating glass never need dusting and create a smooth glass surface that’s easy to clean. Plus, they won’t get in your way when you go in and out.

Screens.

Conventional fiberglass screen comes standard. Optional InView™ window screens are clearer than conventional fiberglass screens. They improve your view, let in 14% more light and are 8% more open to increase airflow.4

A WARNING: Screen will not stop child or pet from falling out of window or door. Keep child or pet away from open window or door.

Increased airflow is based on calculated screen cloth openness. Screen cloth transmittance was measured using an integrated sphere spectrophotometer.
Double- and Single-Hung Windows

DOUBLE-HUNG WINDOWS
For improved ventilation — both upper and lower sashes open and tilt for easy cleaning.

Years of smooth, quiet operation. Our balance systems help ensure your double- and single-hung windows will open and close easily.

Solid and secure. Vinyl window sashes are metal-reinforced where it matters most, creating a window that’s extra-sturdy and wind-resistant.

One less thing to worry about. AutoLock hardware automatically locks the window when it is shut. Simply close your window and confirm it latches.

SINGLE-HUNG WINDOWS
The lower sash can be raised to let the breeze in.

CURVE TOP SINGLE-HUNG WINDOWS*
The venting ability of single-hung windows with the aesthetic appeal of a curve top.

* Available in ThermaStar by Pella® East Region only.

Learn more at PellaAtLowes.com.
SLIDING WINDOWS
Sashes slide open horizontally, so you don’t have to reach up or bend down to open and close them.

Easy operation. Tandem rollers are extra-durable and help ensure smooth openings and closings.

A tight seal against the elements. Pella’s cam-action locks pull the sashes against the weatherstripping.

One less thing to worry about. Optional AutoLock hardware automatically locks the window when it is shut. Simply close your window and confirm it latches.
Casement Windows

Years of smooth openings and closings. Stainless steel operating arms and hinges resist rust and corrosion.

Simple to operate. Unison Lock System secures the window in two places with one easy-to-reach handle.

More convenient handle design. Fold-away handle won’t get in the way of roomside window treatments.

CASEMENT WINDOWS
Popular choices because there’s nothing between you and your view. They open and close with the turn of a handle, so they’re great for spots that are difficult to reach – like behind furniture or over the kitchen sink.

Learn more at PellaAtLowes.com.
Awning Windows

Awning windows hinge open from the top. At home with both traditional and contemporary designs, they’re often placed above or below other windows for extra ventilation and light.

- **Easy to open.** Glide open and shut with the turn of a single handle — no reaching or straining for you!
- **Simple to operate.** Unison Lock System* secures the window in two places with one easy-to-reach handle.
- **A breeze to clean.** Easy-clean wash feature makes it simple to clean the exterior glass from inside your home.

* Unison Lock System is standard on awning windows over 29 inches wide.

**AWNING WINDOWS**

ThermaStar by Pella* White awning windows.

A breeze to clean. Easy-clean wash feature makes it simple to clean the exterior glass from inside your home.
Bay and Bow Windows

Bay windows not only add character to a home, but can make a room feel larger — bringing the outdoors in.

Bow windows are an elegant way to broaden your view and allow for easy operation and ventilation.

**BAY AND BOW WINDOWS**

Bay windows not only add character to a home, but can make a room feel larger — bringing the outdoors in. Bow windows are an elegant way to broaden your view and allow for easy operation and ventilation.

**BAY WITH DOUBLE-HUNG WINDOWS**

Also available with single-hung or casement windows.

**BOW WITH CASEMENT WINDOWS**

Available as 3-, 4- and 5-wide combinations.

* Not available in Pella’s 250 Series products.
Curves and more. Fixed windows don’t open — their job is to maximize your light and view.

Virtually endless design possibilities. Special Shape windows are a great way to add architectural interest and natural light to your home.

A quality, seamless look. Grille options are available to match other Pella® vinyl products.

A stunning focal point. Factory-assembled window and patio door combinations allow you to create a look that’s all your own.

HurricaneShield®

**SPECIAL SHAPE WINDOWS**

Additional shapes are available. See an associate for details.

- Triangle
- Octagon
- Trapezoid
- Quarter Circle
- Half Circle
- Pentagon
- Springline
- Arch Head
- Partial Arch Head

**FACTORY-ASSEMBLED WINDOW COMBINATIONS**

Additional combinations available. See an associate for details.

- Fixed with Casement Flankers
- Fixed over 2-Wide Casement
- Sliding Window over Fixed
- Half Circle over 3-Wide Double-Hung
- Arch Head over 2-Wide Casement
- Arch Head over 2-Wide Double-Hung
- Arch Head over 3-Wide Double-Hung

* Not available in Pella 350 Series line.
Sliding Patio Doors

4-PANEL DOOR with grilles-between-the-glass.

3-PANEL DOOR with White blinds-between-the-glass.

Learn more at PellaAtLowes.com.
Between-the-glass features for design flexibility. White blinds, Linen-colored cellular shades or color-matched grilles are permanently installed between panes of Low-E insulating glass.

Reduced indoor allergens. Patio doors with ordinary roomside blinds accumulate more airborne allergens than Pella® 350 Series vinyl sliding patio doors with blinds-between-the-glass.¹

Extra security. Substantial hardware on Pella 350 Series patio doors features a multipoint lock that secures the door in two places.

Outstanding wind and water resistance.
- A rating of Performance Grade (PG) 50 comes standard on Pella 350 Series patio doors, meaning the design was tested to withstand rain falling at a rate of 8 inches per hour and winds up to 55 mph.
- ThermaStar by Pella® patio doors feature steel-reinforced, interlocking panels that provide added wind resistance, improved energy efficiency and a more secure foundation for locking hardware for extra peace of mind.

Optional HurricaneShield® impact-resistant glass.

HurricaneShield® 350

A durable and wind-resistant vinyl patio door. Up to a Performance Grade (PG) 65 is available.

Outstanding impact resistance. Pella 350 Series vinyl products with HurricaneShield impact-resistant glass meet the country’s stringent hurricane-impact building code requirements.²

Blocks nearly 100% of harmful UV rays — to help protect your furniture, carpet and window treatments from fading.

¹ Based on data from research conducted by the Department of Occupational and Environmental Health at The University of Iowa.
² Performance varies by window and door product. Building codes vary depending on your location. Refer to your local codes for specific details.
